

Important Information for the Other University Applicants Regarding Marks

- (i) Other University Applicants are hereby informed again that **total marks obtained in 3 years in the Honours subject** is the basis of calculating the graduation percentage. **The applicants having marksheet based on grade points (like CGPA system) need to be absolutely sure about this from their respective universities.** It is their responsibility to show proper documents for the marks conversion during verification process. Otherwise, their admission may be cancelled.
- (ii) The Application format of the portal allows only one document to upload for graduation marks. However, for some applicants, **only one marksheet may not be sufficient to prove that their statement of marks in the Application Form is correct.** These applicants must give the correct Honours-subject marks in 3 years. They **will be allowed to produce more than one documents** to prove their statement of marks **during verification.**
